	Examiner Michael J. Zanelli	Art Unit 3661	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The application filed 10/31/03 has been examined. Claims 1-9 are pending.
2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
3. The IDS filed 10/31/03 has been considered.
4. The drawings are objected to because blocks 37 and 50 of Figure 1 must be labeled with suitable legends.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

5. Claims 2-9 are objected to because of the following informalities:
 - A. As per claim 2, at line 7 the comma should be changed to a semicolon.

Art Unit: 3661

- B. As per claim 3, at line 7 insert a comma after “ultrasonic device”.
 - C. All claims depending from an objected base claim are also objected to as containing the same deficiencies.
6. Claims 2-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- A. As per claims 2, 3, 4, 6, 7, 8 and 9, the scope of the claims are indefinite because of the repeated use of the alternative “and/or”. The examiner suggests using the phrase --at least one of ... and ...-- (each occurrence) as appropriate.
 - B. As per claim 2, at line 3 it is unclear what “the position” is in reference to (i.e., position of the vehicle or position of the coupled load). Also it appears that the comma after “total width” should be deleted otherwise the claim would be unclear as to what the “total width” is in reference to. At line 7 “the lifting gear position” and at line 13 “the public traffic space” lack antecedence.
 - C. As per claims 4 and 5, “the drive management system” lacks antecedence.
 - D. As per claim 6, “the amended updated data” lacks antecedence.
 - E. As per claim 7, “the non-public, agriculturally exploited area” lacks antecedence.
 - F. As per claim 9, “the field end” lacks antecedence.
 - G. All claims depending from a rejected base claim are also rejected as containing the same deficiencies.

Art Unit: 3661

7. Claims 1-9, as best interpreted given the deficiencies noted above, are distinguishable over the prior art. As per claims 1 and 2, the prior art of record does not show or reasonably suggest, in combination with the other claimed subject matter, an agricultural utility vehicle, and method of controlling same, which includes recognizing repeated drive events wherein each drive event includes a plurality of functions, displaying the functions and enabling a user to skip functions, blocking execution of functions in public areas, deactivating execution of functions upon detecting obstacles and monitoring operator attention (periodically prompting a user for input), as claimed. Dependent claims 3-9 are distinguishable for at least the same reasons.

8. Claim 1 is allowed.

9. Claims 2-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited documents are of general interest.

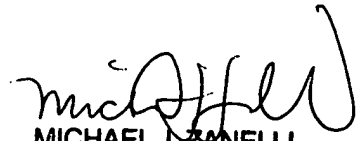

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Zanelli whose telephone number is (703) 305-9756. The examiner can normally be reached on Monday-Thursday 8:30 AM - 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G. Black can be reached on (703) 305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
